Re: Police Department Computers

In August of 2007, the department upgraded the police department's computer infrastructure and Record Management System-(RMS)  
This consisted of a Server and Desktops (clients) which worked together seamlessly also by adding the police department video, and accessing various software enabling the department to become much more organized and efficient.  
The said infrastructure was implemented over 7 years ago, and has served the department well. However, this has become old technology and extremely slow, and in some instances the desktops are just not working.  
The desktops have been upgraded over time and are at their full capacity and operating on Windows XP, which Microsoft no longer supports.

In October 2013, the department applied for an equipment grant through the Office of Criminal Justice Services-OCJS to replace the entire computer network. The grant ultimately resulted in being awarded funding of \$5454.54 or 90% for a new Server, which has been installed and is operating, which saved the department funding the project.

I presented this project in our last year five year planning process and prior to that.

# Russell Police Department

14820 Chillicothe Road Novelty, Ohio 44072  
9-1-1- Emergency / 440-338-1212 –Emergency  
440-338-6212-Non-emergency  
440-338-6113-Fax

The scope of this project will be:

- Replace 12 Dell desktop computers configured to meet our needs.
- Microsoft Office 2013 licensing
- Replace 9 computer monitors

I obtained three quotes from three different vendors, to make certain we are comparing pricing that is reasonable.

Vendors:

- TAC Computer  
12 Desktop computers: \$1350.00 each at \$16,200.00  
Total hardware and software: \$24,504.00
- Bailey Communications Inc.  
Total hardware and software: \$24,444.39
- Banshee Computer Consulting  
Total hardware and software: \$21,787.00 with a trade in - \*without Monitors

I recommend the quote from Bailey Communications Inc.

Please see attached quotes.

\* Please Note- Quote contains pricing for 12 Monitors- the department only needs 9 Monitors.  
Pricing may not indicate shipping charges if any.
